Decoration Options: Laser Engraving

Century Copper Pen ships in a premium gift box with custom sleeve highlighting required information from the EPA about the antimicrobial surface of the pen.

Pricing includes one line of laser engraving. Minimums apply on all decorated orders. Century Copper Pen is available for shipment in Domestic US only.

\*Laboratory testing shows that, when cleaned regularly, CuVerro surfaces kill greater than 99.9% of the following bacteria within 2 hours of exposure: Methicillin-Resistant Staphylococcus aureus (MRSA), Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, E. coli O157:H7, and Vancomycin-Resistant Enterococcus faecalis (VRE). The use of CuVerro® antimicrobial copper products is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those practices related to cleaning and disinfection of environmental surfaces. This surface has been shown to reduce microbial contamination, but it does not necessarily prevent cross contamination.

CuVerro® is a registered trademark of GBC Metals, LLC and is used with permission. Document approval number AT-0004-1401.
